Al:

I just wanted to say thank you for literally saving my life from the cloud of doom the government cast over me for these last 10 years. I really wish I knew you in 1997 when I was originally sentenced because I believe that none of this would have happened.

I was impressed by your understanding of the facts of this rather complex case and how you put forth so much effort in correcting a sentence that was clearly unfair, unjust and illegal, despite the government's unreasonable stance.

You knew exactly how to orchestrate things to get the case before the original sentencing judge which I felt was a key element in its final resolution. Once the case was put before the judge again for resentencing, your brilliant arguments left the government void of any recourse to get things to go their way.

Thanks again. You are a fantastic lawyer.
