

Hi Allen thank you for all your help I am sending you the fees for your work. I wanted to go to blains border and mail you the draft but my passport was expired. So right now I just applied for new passport which should come in 2 to 3 weeks then I'm going to enter in to U.S. to see if everything is ok. The first time I go into U.S. I'm going to tell them what has happened before I enter so that I know 100% that it is ok to come to U.S. When I called to find out about my status for some reason I was not expecting the answer you gave me. I was thinking it was going to much harder than it was. So now what you told me is true but my mind still doesn't believe it. I will call you before I go to the border just in case. Once again Thank You Gurdeep [REDACTED]
