

---

Allen,

Thank you again for all your diligent, professional and dedicated work on this matter. The result speaks for itself in terms of the magnificent work you did. I apologize for letting this email slip. The overall billing for the matter was fair especially considering the often unreasonable approach of the opposition and the verbosity and involvement of your client! Please do not hesitate to use me as a reference at any time. Like you said the measure of success is client satisfaction. You are not only one of the finest lawyers I have worked with over the years but just a fine person with integrity, compassion and a keen sense of fairness.

Have a very happy new year and I wish you, your family and your clients the best!!!

With warm regards and gratitude,
